

I'm a musician, and I've watched as this corporate take over of radio has destroyed my chances of getting airplay. And that's not to mention what it is doing to our democracy, when a corporation can own all the radio stations in an area, and now newspapers and television also? We've seen enough propaganda practiced recently in the 'big media' for me to know this is unhealthy. I'm commenting regarding 02-277. Thank you.
